Appendix R

DEFINITIONS OF TERMS

Appendix B defines terminology used in the EPCM.

APPENDIX B

DEFINITIONS OF TERMS

Arizona Construction General Permit (AZCGP)

Provides authorization to discharge under the Arizona Discharge Elimination System; specifically authorizes only discharges from construction activities in Arizona by those owners and operators who meet eligibility requirements and comply with the general permit terms and conditions.

ADO"

The Arizona Department of Transportation as the permittee, owner/operator and project manager of all its contractors and sub-contractors.

Arizona Pollutant Discharge Elimination System (AZPDES)

The Arizona Department of Environmental Quality Program by which permits are issued for allowable discharges to waters of the United States and authorization is granted to qualified candidates for coverage under the Arizona Construction General Permit.

Aquifer Protection Permit (APP)

The Arizona Department of Environmental Quality permit that covers discharge of pollutants directly or indirectly to an aquifer or to the land surface or vadose (the areas between the aquifer and the land surface) zone in such a manner that there is a reasonable probability that the pollutant will reach an aquifer.

Arizona Revised Statutes

Statutory laws in the state of Arizona.

Best Management Practice (BMP)

A technique, process, activity, or structure used to reduce the pollutant content of a storm water discharge minimizing the potential impacts upon receiving waters.

Clean Water Act (CWA)

Establishes the basic structure for regulating discharges of pollutants into the waters of the United States and regulating quality standards for surface waters. The basis of the CWA was enacted in 1948 and was called the Federal Water Pollution Control Act, but the Act was significantly reorganized and expanded in 1972. "Clean Water Act" became the Act's common name with amendments in 1977.

Code of Federal Regulations (CFR)

The codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

Concentrated Flow

Runoff that accumulates or converges into well-defined channels with greater velocity than Sheet Flow.

Construction Site

The land or water area where construction activities will occur and where stormwater controls will be installed and maintained. The construction site includes construction support activities, which may be located at a different part of the property from where the primary construction activity will take place, or on a different piece of property altogether. The construction site is often a smaller subset of the lot or parcel within which the project is taking place. (NPDES definition)

REFERENCE FORMS AND CHECKLISTS

- Appendix C contains the following sample forms and checklists:
 - AZPDES SWPPP Index Sheet
 - NPDES SWPPP Index Sheet
 - ADOT Encroachment Permits
 AZPDES SWPPP Index Sheet
 - Notice of Intent (NOI)
 - Grading and Stabilization Record
 - ADOT Methodology for Determining Final Stabilization
 - Notice of Termination (NOT)
 - Environmental Memorandum

Appendix D

2-YEAR, 24-HOUR PRECIPITATION ISOPLUVIALS

 Appendix D Isopluvials Map represents isopluvials of 24 hour precipitation (inches) with average recurrence interval of two years.
